5th Birthday!

Digital Culture Network

“As we reach a milestone 5th birthday, the Digital Culture Network maintains a passion for developing a sector of creative and cultural organisations and individuals who have relevant digital and data skills.

Our vision continues to be a sector full of people with the knowledge, literacy and capacity to achieve their digital ambitions and to use digital solutions to enhance their mission and grow their reach.

We're on a digital journey.

We want you to be a part of it!”

Digital Culture Network

Since the Digital Culture Network began, in **June 2019** we have delivered over **5,500 support cases** to more than **1,750 organisations**, of which **630** were **National Portfolio Organisations**.

What we did in 23 – 24

Our team worked with more than **690 organisations and individuals** across all regions and artforms to deliver over **2,000 support cases**.

“A very valuable encounter which was motivating and empowering. Feels like I have been lost on a mountain in the mist but someone has handed me a map and compass so I can at least start to navigate.

Good concrete and actionable ideas without losing sight of bigger picture too.”

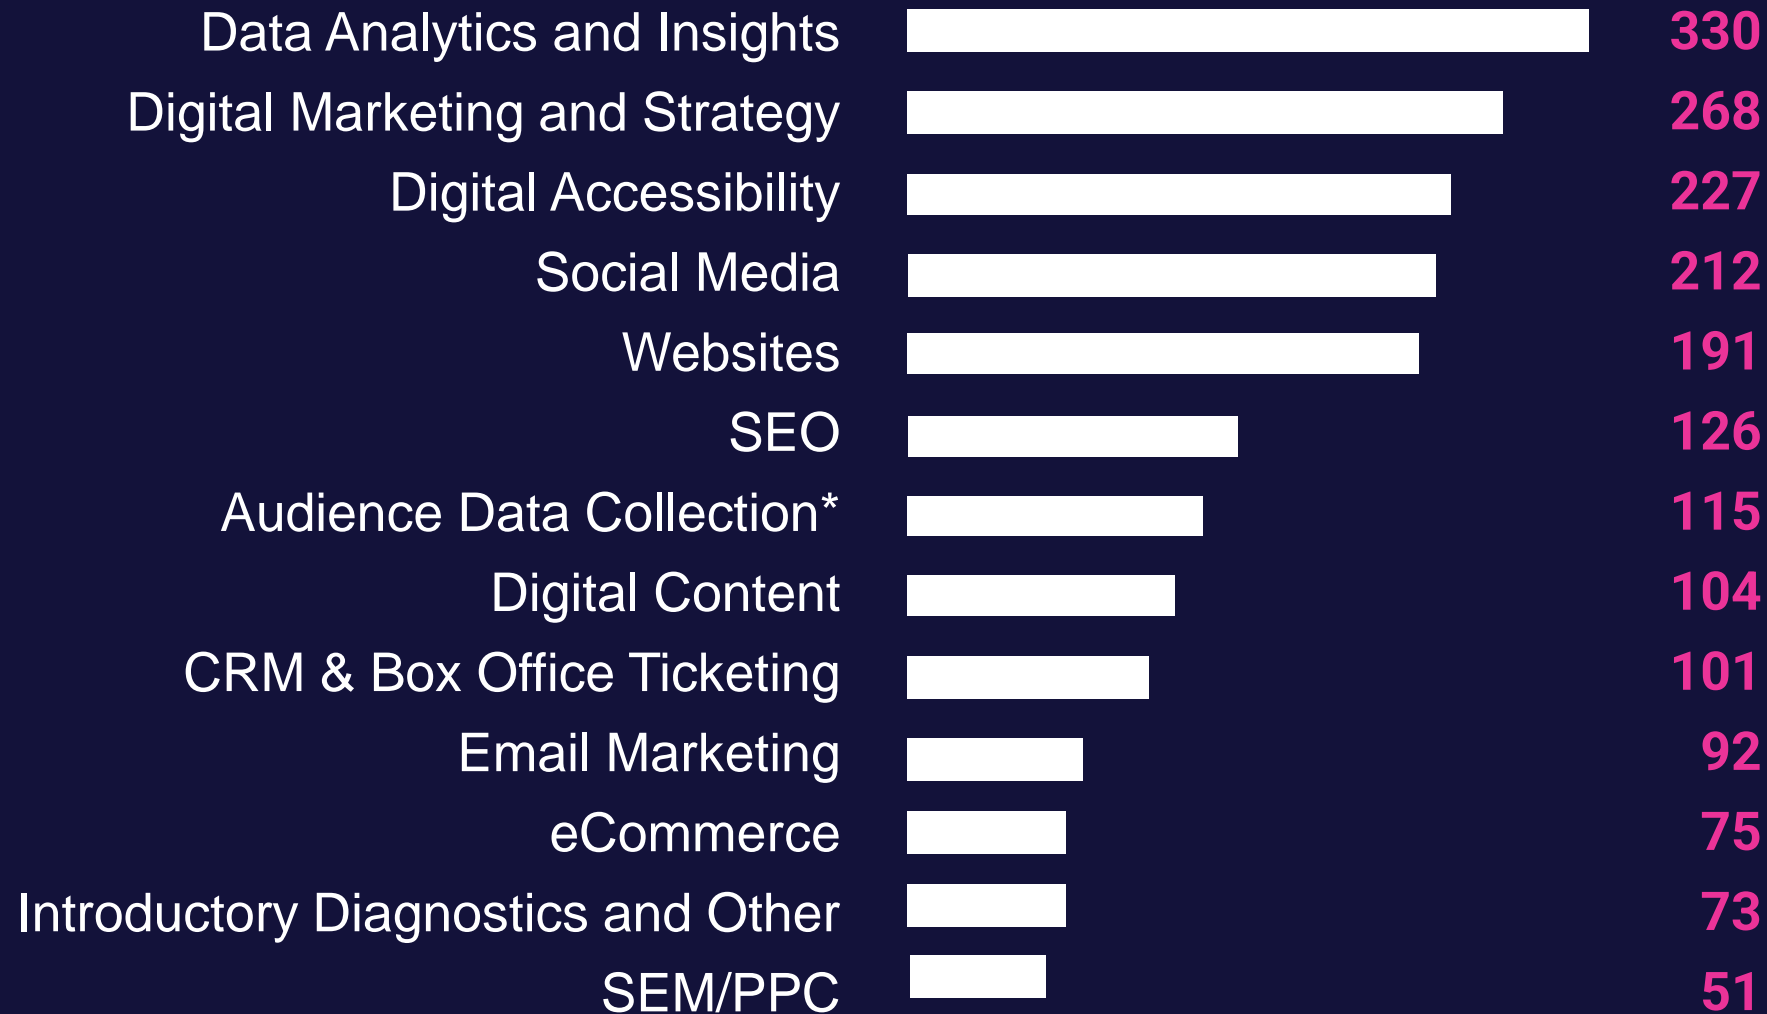

Julie Carter

Cases by region:

Cases by specialism:

*New in Jul 2023

“I had a really useful session with Katherine.

She was extremely knowledgeable, and gave her advice and in a clear and supportive way.

I've come away armed with a clear action plan on how we can make improvements..”

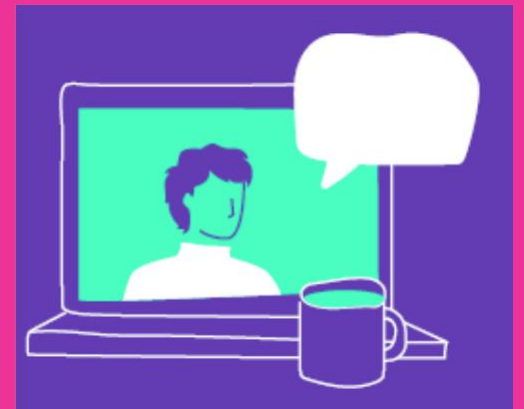

Roald Dahl Museum and Story Centre

Events and webinars

We've loved meeting representatives from **organisations across the country at events and online**

You've attended training days, workshops and webinars on a diverse range of topics including Grow Your Digital Content Skills in partnership with Google Arts and Culture

3,000+

Event attendees
